UNDERCOVER OPERATION #1: 2007 NISSAN

2 40. On or about October 14, 2014, the undercover operator, identified in paragraph 28 above ("operator"), took the Bureau's 2007 Nissan to Respondent Redline's facility and requested 3 smog, lamp, and brake inspections on the vehicle. The left front and right rear brake rotors on the 4 Bureau-documented vehicle were machined below the manufacturer's minimum thickness 5 specifications and both headlamps were out of adjustment. Respondent's employee, William 6 7 Marshall ("Marshall"), prepared a written estimate in the amount of \$115, had the operator sign it, then gave him a copy. The operator observed Respondent Zackary West ("West") perform the 8 smog, lamp, and brake inspections on the vehicle. West turned on the headlamp switch, walked 9 around the vehicle, and appeared to verify the operation of the lamps. West did not remove the 10 wheels, but did road-test the vehicle. After the inspections were completed, Marshall came into 11 the office area. The operator observed Marshall open a certificate book and write information on 12 a certificate. Marshall took the certificate book out to West, who was in the shop. West appeared 13 to sign the certificate. Later, Marshall told the operator that the vehicle was ready, but it had 14 failed the brake inspection because one brake rotor needed replacement. Marshall told the 15 operator to replace the brake rotor, then to return the following day and see him, and he would 16 17 give the operator a brake certificate. The operator paid Marshall \$115 and received copies of an invoice, a VIR, and Certificate of Lamp Adjustment No. 18 facility. Later, the Bureau reviewed the lamp certificate and noted that West had written in the 19 number RY180098 as the adjuster's license number. RY180098 is not a valid license number. 20 41. On or about October 15, 2014, during the third undercover operation conducted by 21

the Bureau (referring to paragraphs 64 to 75 below), the operator asked Marshall for the brake
certificate for the 2007 Nissan. The operator told Marshall that he had sold the vehicle and
needed the brake certificate so that he could get the registration. Marshall opened the certificate
book and filled out the certificate for the vehicle, Certificate of Brake Adjustment No.

26 Marshall signed the certificate and gave it to the operator. Later, the Bureau
27 reviewed the certificate and noted that the number RY 030749 had been written in as the

adjuster's license number. Brake Adjuster License No. BA 030749 is issued to Amarjit Singh. 1 Amarjit Singh was not present at the facility at the time the inspections were performed. 2 42. On or about October 27, 2014, the Bureau inspected the 2007 Nissan and found that 3 both headlamps were still out of adjustment. The Bureau also found that none of the wheels had 4 been removed, indicating that the brake inspection had not been completely performed on the 5 vehicle. Further, the left front and right rear brake rotors were not within manufacturer's 6 specifications. 7 **ELEVENTH CAUSE FOR DISCIPLINE** 8 (Untrue or Misleading Statements) 9 43. Respondent Redline's registration is subject to disciplinary action pursuant to Bus. & 10 Prof. Code section 9884.7, subdivision (a)(1), in that Respondent made or authorized statements 11 which it knew or in the exercise of reasonable care should have known to be untrue or 12 misleading, as follows: 13 Respondent Redline's employee, Marshall, certified under penalty of perjury on 14 a. In 21 fact, the vehicle had not been road-tested on October 15, 2014. 22 Respondent Redline's employee, Marshall, certified under penalty of perjury on c. 23 , issued on October 15, 2014, that Amarjit Singh performed the Brake Certificate No. 24 applicable inspection of the brake system on the Bureau's 2007 Nissan as specified by the Bureau 25 and in accordance with title 16 of the California Code of Regulations and the Business and 26 Professions Code. In fact, West performed the lamp inspection on the vehicle and issued the certificate without a valid lamp adjuster license issued by the Bureau, in violation of Bus. & Prof. Code 10 section 9888.3 and Regulation 3305, subdivision (a). 53. On or about October 15, 2014, the undercover operator, identified in paragraph 28 2 above ("operator"), took the Bureau's 2002 Ford to Respondent Redline's facility and requested 3 smog, lamp, and brake inspections on the vehicle. The right front and left rear brake rotors on the 4 Bureau-documented vehicle were machined below the manufacturer's minimum thickness 5 specifications and both headlamps were out of adjustment. Respondent's employee, William 6 Marshall ("Marshall"), prepared a written estimate in the amount of \$100, had the operator sign 7 it, then gave him a copy. The operator observed smog check technician Moses Valdez ("Valdez") 8 perform the smog and lamp inspections on the vehicle. Valdez turned on the headlamp switch, 9 walked around the vehicle, and appeared to verify the operation of the lamps. Respondent 10Mauricio Aguilar ("Aguilar") appeared to perform the brake inspection. Aguilar did not remove 11 the wheels from the vehicle, and neither Aguilar nor Valdez road-tested the vehicle. After the 12 inspections were completed, Marshall came into the office area. The operator observed Marshall 13 open two certificate books and complete and sign both certificates. The operator paid Marshall 14 \$100 and received copies of an invoice, a VIR, Certificate of Lamp Adjustment No. 15 and Certificate of Brake Adjustment No. At approximately 1210 hours, the operator 16 left the facility. Later, the Bureau reviewed the brake and lamp certificates and noted that the 17 number RY030749 had been written in as the adjuster's license number. Brake Adjuster License 18 No. BA 030749 and Lamp Adjuster License No. LA 030749 are issued to Amarjit Singh. 19 Amarjit Singh was not present at the facility at the time the inspections were performed. 20 On or about October 23, 2014, the Bureau inspected the 2002 Ford and found that 54. 21 both headlamps were still out of adjustment. The Bureau also found that none of the wheels had 22 been removed, indicating that the brake inspection had not been completely performed on the 23 vehicle. Further, the right front and left rear brake rotors were not within manufacturer's 24 specifications. 25 /// 26 27 ||| /// 28
