PRODUCT CERTIFICATION

DATA ACQUISITION DEVICE

The following product has been certified by the Bureau of Automotive Repair (BAR) as meeting all requirements of the "BAR OBD Inspection System, Data Acquisition Device Specification, Version 2.5, dated October 22, 2012" and has been approved for use in California's Smog Check Program under the conditions outlined below. If the product is decertified for any reason, the product shall immediately cease to be sold, distributed, transferred, and used within California.

CERTIFICATION NUMBER – BAROIS2016DTW01

CERTIFICATION DATE 06/20/2016
EXPIRATION DATE 06/19/2017

PRODUCT DESCRIPTION

VENDOR	Drew Technologies
PRODUCT NAME	IMClean-01
MODEL #	IMClean-01
WIRED/WIRELESS	Wired
FIRMWARE #	1.4.0.0
DLL #	1.4.0.0

CONDITIONS OF APPROVAL

If any problems or discrepancies, as defined by the BAR, are discovered subsequent to the issuance of this approval, the manufacturer shall correct or resolve the issues to the satisfaction and timeframe established by the BAR. Failure to do so may result in decertification of the product.

Certification only applies to the original configuration of the product. This includes, but is not limited to hardware, accessories, and software as submitted to BAR at time of certification.

If the manufacturer makes any modifications to the certified Data Acquisition Device configuration or associated software, the manufacturer shall submit those modifications along with any requested information/data to the BAR for review and approval. The BAR must approve any modifications prior to their release.
