- 7. Health and Safety Code (H & S Code) section 44002 provides, in pertinent part, that the Director has all the powers and authority granted under the Automotive Repair Act for enforcing the Motor Vehicle Inspection Program.

With the exception of diesel-powered vehicles addressed in subsection (f) of this section, the following emissions test methods and standards apply to all vehicles:

(a) A loaded-mode test, except as otherwise specified, shall be the test method used to inspect vehicles registered in the enhanced program areas of the state. The loaded-mode test shall measure hydrocarbon, carbon monoxide, carbon dioxide and oxides of nitrogen emissions, as contained in the bureau's specifications referenced in subsection (b) of Section 3340.17 of this article. The loaded-mode test shall use Acceleration Simulation Mode (ASM) test equipment, including a chassis dynamometer, certified by the bureau.

If the emissions standards for a specific vehicle is not included in this table then the exhaust emissions shall be compared to the emissions standards set forth in TABLE 1 or TABLE 11, as applicable. A vehicle passes the loaded-mode test if all of its measured emissions are less than or equal to the applicable emission standards specified in the applicable table.

(b) A two-speed idle mode test, unless a different test is otherwise specified in this article, shall be the test method used to inspect vehicles registered in all program areas of the state, except in those areas of the state where the enhanced program has been implemented. Exhaust emissions from a vehicle subject to this inspection shall be measured and compared to the emission standards set forth in this section and as shown in TABLE III. ## MARCH 6, 2013 OPERATION: 1991 MAZDA

- 25. On March 6, 2013, the Bureau conducted an operation at Respondent's smog testing station, Anaheim Test Only Center. The Bureau's vehicle, a 1991 Mazda, was modified to fail a proper smog inspection due to a misadjusted ignition timing, and a tamper indicator had been installed to detect movement of its ignition distributor. A Bureau operator took the vehicle to Respondent's smog station and requested a smog inspection. After Respondent completed the smog test, the operator completed and signed a work order, paid Respondent \$58.00, and received an unnumbered invoice and Vehicle Inspection Report (VIR) bearing Certificate of Compliance Number and Respondent's name as the smog technician who had performed the smog test. The operator left Respondent's station and returned the vehicle to Bureau personnel.
- 26. On March 11, 2013, Bureau personnel re-inspected the vehicle after the smog test at Respondent's smog station. They determined that the condition of the vehicle as modified before being tested at Respondent's smog station had not changed; the vehicle's ignition timing was still misadjusted and the ignition distributor tamper indicator remained intact. Bureau personnel performed a smog inspection on the vehicle, which failed the ignition timing functional check due to its misadjusted timing.

#### FIRST CAUSE FOR DISCIPLINE

## (Misleading Statements)

27. Respondent has subjected his registration to discipline under Code section 9884.7, subdivision (a)(1), in that on March 6, 2013, he made statements which he knew or which by exercise of reasonable care he should have known were untrue or misleading when he issued electronic Certificate of Compliance No. for the 1991 Mazda, certifying that the vehicle was in compliance with applicable laws and regulations when, in fact, the vehicle's ignition timing was misadjusted.

## SECOND CAUSE FOR DISCIPLINE

## (Failure to Provide a Written Estimate)

28. Respondent has subjected his registration to discipline under Code section 9884.7, subdivision (a)(6), in that on March 6, 2013, he failed to comply with Code section 9884.9, subdivision (a), by failing to provide the operator with a written estimated price for the smog inspection of the 1991 Mazda.

# THIRD CAUSE FOR DISCIPLINE

# (Failure to Comply with Regulations Pursuant to the Motor Vehicle Inspection Program)
