Any such exception shall be documented on the report of the inspection.

(e) The services of a licensed vehicle safety technician shall be available at each licensed station, except a fleet owner station, for not less than 40 hours weekly or not less than half of the hours the station is open for business weekly, whichever is less. Fleet owner stations shall provide the services of a licensed technician for the inspection specified in subdivision (a).

(f) A licensed station shall afford the Bureau or its representative access during normal business hours, and any time vehicle safety inspections are being performed outside of normal business hours.
